New Volume, New Types, and New Arrangements

TO THE NATIONAL DEMOCRACY OF THE UNITED STATES HE undersigned takes this method of inform the members of the great national democratic party that, ig assumed the sole proprietorship and editorship of the Wassus and, he looks to them for that countequance, encouragement

efforts to place a copy of the Daily, Weddy, or Semi-Weddy Union in the hands of every farmer, mechanic, and working man in the country.

The subscription price of the Daily Union is ten dellars per annum. The Tri-Weddy (published semi-weekly during the recess of Congress) is five dellars per annum, and contains all the reading matter which appears in the Daily. The Weddy Union is furnished to subscribers at the low rate of one dellar per annum, and contains all the reading matter which appears in the board. It is a large and handsomely-printed sheet, and contains as much reading matter in the course of a twelvement as would make tuelre ordinary ectaes columes. It will be found to possess the advantages of both a political and a family newaraper. The most important political articles of the daily seen are transferred to the weekly, and during the stiting of Congress a careful abstract of the daily proceedings of the two houses is prepared exclusively for its columns. It contains, besides all important State papers of the year, election returns from every State in the Union speeches of distinguished democrats in and out of Congress, intoresting correspondence, afull summary of foreign and domestic news, and from week to week such information in regard to the agricultural, manufacturing, and commercial interests of the country as will be found, it is believed, of particular value.

That the Weddy Union is appreciated in the most substantial manner by democrats in every section of the Union, no better evidence need be desired than is furnished by its rapidly-increasing circulation. Within ediplace months tenety thousand new amont have been added to the subscription list, and, with the slightest exertion on the part of our friends, its circulation can be increased to one hundred thousand copies before the close of the year. Will our friends exert themselves? Of the value of the Weddy Union to rover this concedent and the Union of the Union of the Weddy Union to the Weddy Union is so to the paper but from metrics ar

from motives which I think will be understood and approximated democrats everywhere. In conclusion, I desire to say a few words to subscribers, and to such as may hereafter become subscribers. There is now owing to such as may hereafter become subscribers. There is now owing to the Union seatbolishment upwards of seventy thousand dollars for back subscriptions. These enormous arrearages are the result of the credit system. With the new volume upon which the Union has entered that system is absurdanced, and hereafter the business of the establishment will be conducted on strictly cash principles. No subscriptions for the Daily, Semi-weekly, or Weekly issue will be received unless accompanied with the advance payments.

THE ATTENTION of the community generally, and of house-builders particularly, is invited to the Keystone Heater, lately patented by J. D. Groen, of Philadelphia.

All persons interested are solicited to call at our store and satisfy themselves of the superiority of this heater over all others in use. So successfully have the-principles of combustion been applied in its construction, that athlough it presents a radiating surface of one hundred and fifty square feet, if requires thirty per cent. less coal than any furnace herotofore manufactured.

Every improvement that an experience of thirty years in the furnace business could suggest has been applied in the production of the Keystone Heater, and its proprietors feel assured that, for efficiency and economy of use, it is unsurpassed.
